The war fever, in Congress and elsewhere having greatly abated, if not wholly passed, it seems, on a cool review of the excitement. as though some of the leading Republican Senators had been engaged in playing a queer game. We do not like to suspect such men as Wm. H. Seward, Henry Wilson and John P. Hale of insincerity; but when they profess to strike hands with such characters as Muson of Va., Toronds of Gal, and Clay of Alal, on a question so extraordinary, one of two things seems pretty certain-that our Republican champions have gone over to the enemy, or that they are playing a game of brag and bluff, with no other aim than to test the earnestness and courage of the war-dogs.

In this case, we see no other explanation of the course of the Northern Senators to whom we have alluded; and we suppo e we must concede to them the praise of having played the brag game uncommonly well; though we do not regard that sort of skill as affording the highest proof of sound statesmuship.

"Our country, right or wrong," is a maxim to which the unthinking and vicious herd are always ready to assent; but, as we believe it to be essentially immoral and degrading, we do by no means andiscribe to it. What then? Are we therefore the enemies of our country? Nay, we value her character and good name among the nations, far too highly, to be willing to have them marred by injustice and wrong. We wish her to be truly "great, glorious and free"—a bright and shining example of the excellence and virtue of republican institutions-an example so pure and honorable, and free from all taint of wrong and injustice, that the world may be moved to imi-

If, therefore, we find our country "wrong" in any important point, it seems to be plainly our duty, as loyal and honest citizens, not to encourage and seek to justify her in that wrong, but to spare no efforts to set her right, and to keep her so, and then by all means to vindicate and defend her. This is our idea of true patriotism-which the reader will perceive is somewhat different from the game of Brag, as played by grave Senators and Representatives at Washington.

FASHIONS.-In dresses, the body, or waist, is cut high, (for dinner, or ordinary evening dress,) slightly pointed, and with the buttons in front covered with the same material of which the dress is made. The basque body, is still much worn, but chiefly for walking, or home dress. The long, flowing sleeve, is still high in favor. The full, white muslin basque, with a belt of ribbon to match the skirt, will still be in favor this Summer. Collars are wore, extremely small; under sleeres, close at the wrist, with the cuff to match the collar. Breakfast sets are very pretty, made of Marseilles, and edged with a scollop and knot, of red working cotton. Dress sets are made of Valenciennes inserting and edging. Gauntlet gloves are still worn, and glove trimmings, and wristlets of various kinds. It is important to good taste that the laced walking-boot should harmonize in color, with the dress.

Thomas Lock, of Galesburg, Ill., writes to the New York Tribune, that he was a seaman on board the ship John and Albert. from Genoa to New Orleans, and he is much surprised to see the statement that the vessel was fired into by a British cruis. er. He says: "I am positive that no such thing ever occurred; nor do I believe that a British cruiser on the voyage.

A telegraphic despatch dated Cincinnati June 14, gives the particulars of a destructive fire in Evansville, Ind., on Saturday night, involving the loss of \$100,000. The Canal Bank was damaged to the extent of \$1500. The Journal office is a total loss.

The yacht Wanderer has been released. Nothing appeared on the examination to justify her detention, or the suspicion that ead been excited against her.

THE BOYES OF ALLEY FOUND.-In thoroughly remoting the earth at the burial place of Ethan Allen to-day for laying the fundation of the Monument, the lones of Ai.en were found! right beneath the place of the old tombstone! They were boxed up and reinterred beneath the foundation.

The former examination of the ground was a very imperfect one, and no reliance was placed upon it at the time by the Commissionnes—one remarking to us that not-withstanding all that had appeared, he thought it quite likely that when a thorough removal of the earth was made the hones would brought to light—as they were.— Burlington, (Vt.,) Free Press, 8th.

LOCAL NEWS.

STEAMER GOVERNOR.-This popular boat, which has been thoroughly overhauled and improvements made in her machinery made her first trip to New York on Monday night. She did not arrive here till 10 o'clock, - two hours after her appointed time-in con-equence of a delay in the arrival of the holler Inspectors. She will hereafter arrive here punctually at eight o'clock, stopping at Long Wharf. From an intimate acquaintance of long standing with her commander, Capt. Benj. Court of Justices.

There was little business in Court vesterday morning. One case for assault, by William K. Delany on one of his pupils at the Catholic school. The boy was badly beaten. On motion of defendant the case was continued.

There were two saits for debt. 1st. J. V. Turner & Son, versus Nelson T. Briggs .-Judgment for plaintiffs-nine dollars and costs. 2d, Bull & Bayley, versus Faulkner, to recover 37 cents wharfage at Bristol Ferry wharf. Defendant submitted judgment and appealed.

137 We labored with great assiduity through the whole of the latter part of the day yesterday, to produce some reliable information which we could give our readers this morning, as to when it might be expected to clear away. We consulted the almanae, and we asked everybody we knew in the street, but all to no purpose, and finally we settled down under the conviction that it would clear up when it got ready.

10 Col. C. C. Van zandt, late of this city, has formed a law copartnership with William Sanford, Esq., in Providence. We learn that it is the intention of Col. Van Zandt to continue the practice of the law also in this city,-by the exercise of an ubiquity for which he is noted.

YACHT UNA.-This vessel, which gained the stake-boat next after the winning vessel at the recent yacht race in New York harbor, arrived here yesterday forenoon, bound to Providence. She is a fine vessel of 70 tons register, sloop rigged, and is owned in New York. The Una will probably have an opportunity of trying her speed with some of the yachts at this end of the Sound.

RETURNED.—The water cask stolen from the cemetery as stated in the News last week, has been returned, as claudestinely as it was taken away, to its former place; the thief doubtless reflecting, after the publicity that had been given the matter in this paper, that it would prove too hot for him to hold. We advise him when again he feels the want of a cask, to refrain from invading the sauctuary of the dead to sup-

We learn by telegraph from Memphis, Tenn, that the steamboat Pennsylvania explotted her boilers on Sunday morning at 6 o'clock, at Ship Island, some seventy miles below that city, and was burned to the water's edge. There were 350 passengers on board, and it is believed that 100 were killed or are missing,

THE RESULT.—The New Clifton fell a teetle behind the Perry going up Monday. Captain Phillips says, however, that the Clitton might have passed the Perry, but as the latter had got ther reputation up as being a "crack boat," Captain Morgan disliked to rob her of it.

BRIDGE WANTED.-A bridge is needed over Pelham Street where it crosses Thames Street. The "river" runs strong at that point during a heavy rain, requiring the exercise of no little skill in fording it. A very small boy had a narrow escape there yester day from being swept away and lost.

IF As "one extreme always follows another," it is reasonable to suppose that when the clouds which have so long draped the heavens have once emptired themselves, a spell of warm, dry weather will follow,-This certainly is a consummation most devoitly to be hoped for.

Music in Prostrect.-We learn that Mr. Tourjee, of this city, in connection with his singing class, will give another of his superlative conce ts in Aquidneck Hall some time during the present month, of which due notice will be given.

THE WESTHER -A weather prophet writing to an agricultural paper, says and When you wish to know what the weather to to be, go out and select the small set cloud you see; keep your eventuor it, and if it de-creases and disappears, it shows at state of the cir which will be sure to be followed by fine weather; but if it increases in size, take your great coat with you, if you are going from home, for falling weather will be not far off. The reason is this: when the air is becoming charged with electricity, you will see every cloud attracting all lesser ones to it, until it gathers into a shower; and on to it, much was the contrary, when the Build is passing on or diffusing itself, then a large cloud will be seen breaking to pieces and dissolving.

The money has been invested in the parthyse of a gold medal. The medal is two inches in diame ter, and weighs five ounces.

A SUSPECTED SLAVER SEIZED.—The yacht Wunderer and the schooner Charter Oak were seized on Wednesday, in Long Island Sound, by Capt. The Wanderer is suspected of being about to start on a slave voyage, and the Charter Oakis charged with complicity, in carrying stores and munitions

WHAT HAS GOT INTO THE BARBERS? At Chicago, a few weeks ago, a jealous har-ber hanged his mistress, quartered her, packed her up in a barrel and consigned her to New York. At St. Louis, three barbers strangled a customer, and after robbing him threw his body into a cellar-way. In Phil-At Green Island, opposite Tray, N. PROF. O. J. WODD—Dear Sir: Some
time last summer we were induced to me some
of your Hair Restorative, and its effects were
so wouldeful, we feel it our duty to you and
the afflicted, to report it.

Our little sun's head for some time had been
perfectly covered with sores, and some called
it scald head. The hair almost entirely came
off in consequence, when a friend, seeing this
suffering, advised us rouse your Restorative,
we did so with little hope of success, but, to
our surprise, and that of all our friends, a
very few applications removed the disease entirely, and a new and lovariant crop of hair
som started out, and ne can now say that
our kay has at healthy a scalp, and as luxuriant a crop of hair as any other child. We
can therefore, and do hereby recommend your
Restorative, as a perfect to nedy for all dis
eases of the scalp and hair.

We are, your respectfully.
